Buy Now for M2 Documentation

This module add "BuyNow" button on product view page and list page to process directly checkout.

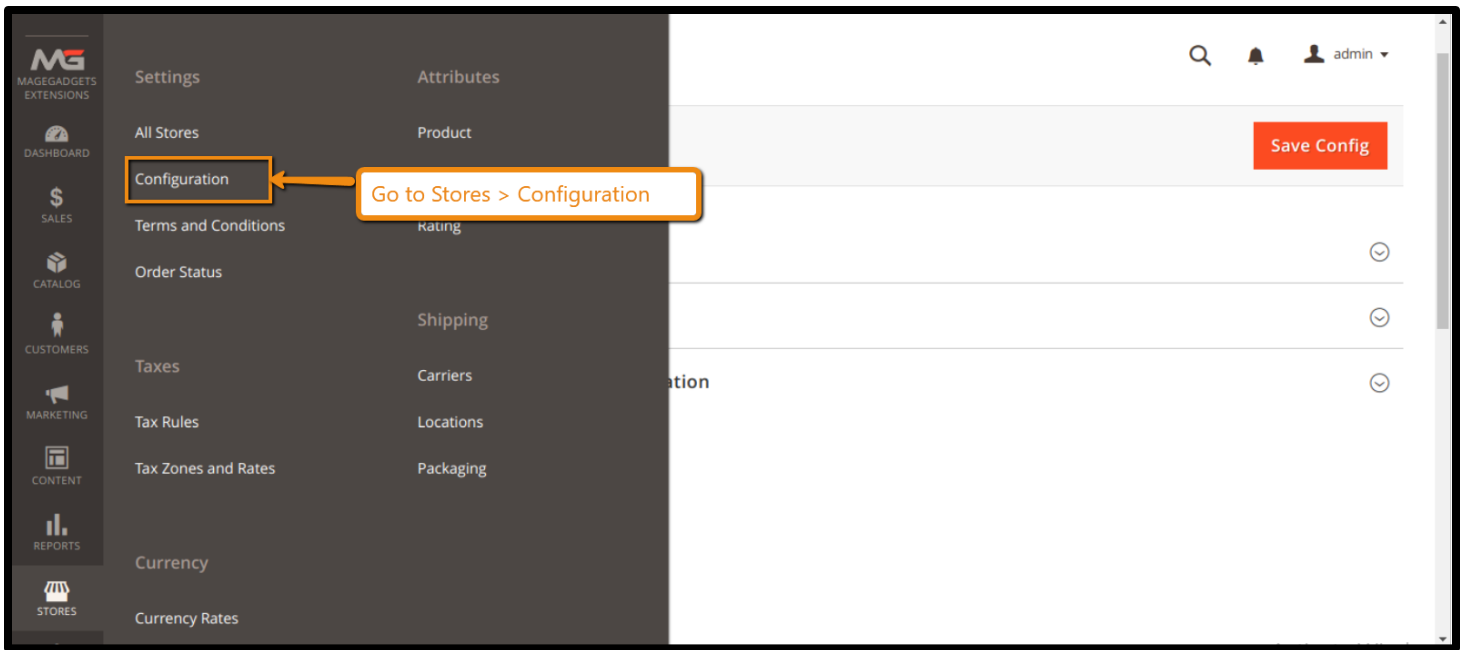

1. Key Features:

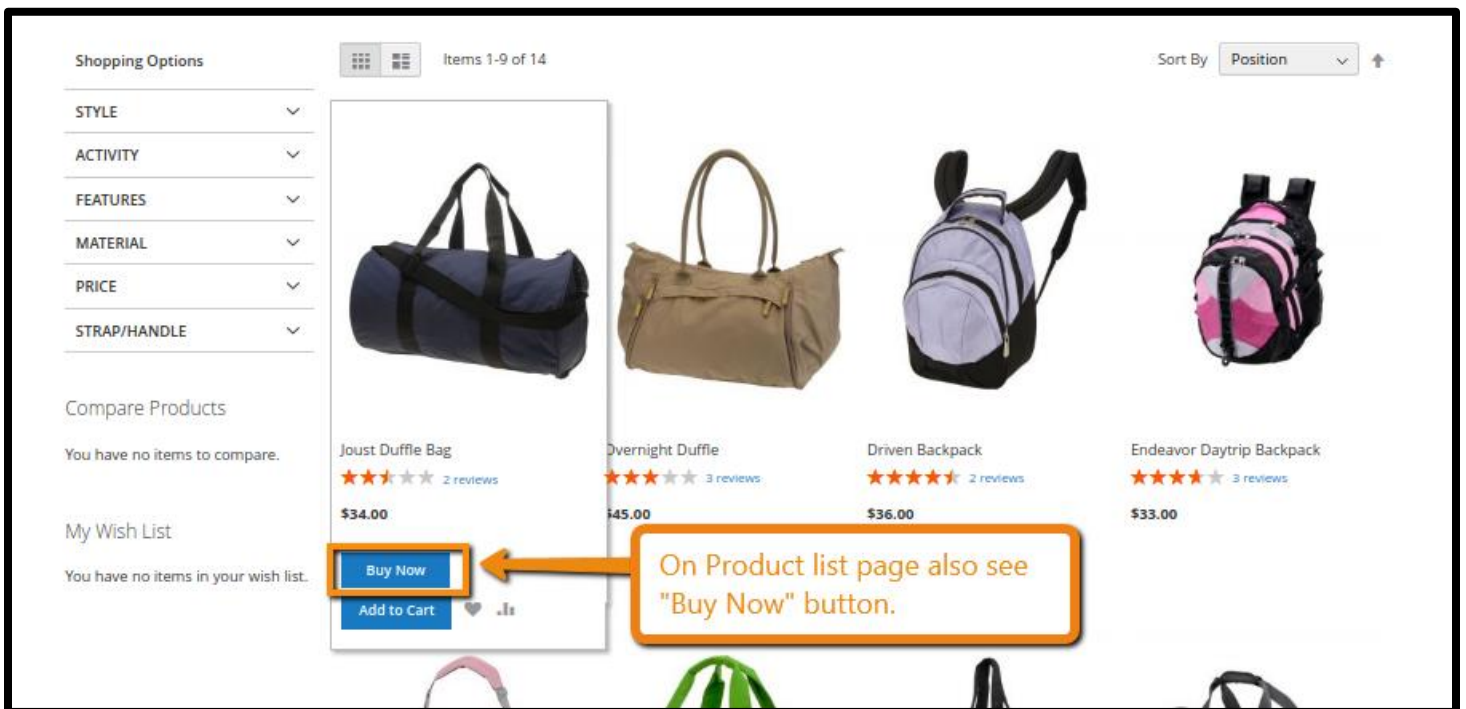

- a - No Extra coding needed.
- b - Ready to Install and use.
- c - Remove Complexity.

2. All settings are available admin:

Go to Admin -> Store -> Setting -> Configuration > Magegadgets> Buy Now

Product List Page:

Easy to modify:

The screenshot shows the 'Configuration' page for 'MAGEMAGEGADGETS'. The left sidebar contains navigation options: SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, FIND PARTNERS & EXTENSIONS, and SELLERMOBILE. The main content area is titled 'Buy Now' and includes a 'Save Config' button in the top right corner. A central panel, highlighted with an orange border, contains the following settings:

- Keep Other Cart Item(s) When Click Buy Now: No
- Enable On List Page (store view): Yes
- Enable On View Page (store view): Yes
- Enable On View Page (store view): Yes
- Enable On View Page (store view): Yes
- Enable On Related Products (store view): Yes
- Button Title (store view): Buy Now
- Addtocart form Id (store view): [Empty field]

Below the 'Addtocart form Id' field, there is a note: 'Enter addtocart form id for product view page(Ex. product_addtocart_form)'. An orange callout box with an arrow points to the 'Buy Now' button title field, containing the text: 'Enable "Buy Now" in different page.'

Thank you!
