#### 1. Key Features:

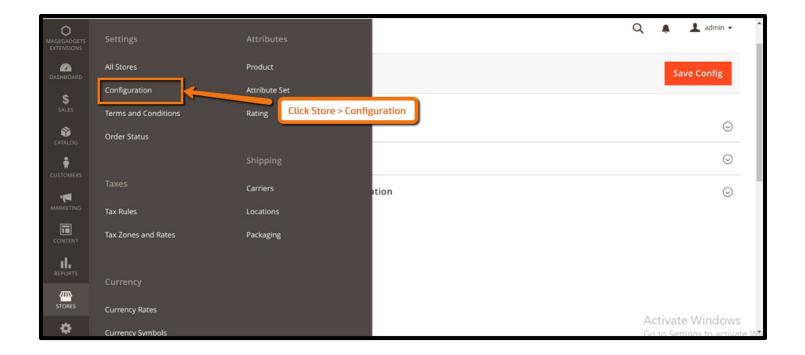

- a Upgrade Proof Module.
- b- Tested for Magento version 2.x
- c- Easy to install & configure.
- d- Best way of enabling template path hints.

e- Easy to use (You don't need to go to System > Configuration > Developer > Change the configuration scope > Turn on the template path hints in order to enable. And don't need to turn off either if you don't need.).

- f- Option to enable/disable.
- g- Option to add access code for security.

#### 2. All settings are available admin:

Go to Admin -> Store -> Setting -> Configuration > magegadgets> easytemplate path hints

	Store View: Default Config •	Ø		Save Config			
MAGEGADGETS EXTENSIONS	All other open sessions for this account were terminated.						
\$ SALES	SELLERMOBILE	~	General Settings	$\odot$			
CATALOG	GENERAL	~	Manage Links	$\odot$			
÷	MAGEGADGETS	^	Search Engine Optimization	$\odot$			
	Easy Template Path Hints Social Login		Go to the "Easy Template Path Hints"				
	CATALOG	~					
	CUSTOMERS	~		Activate Windows			

#### **3. Installation / Configuration:**

1) Just copy & paste the 'app' folder provided in the extension zip file to the root of your magento installation.

2) After installation go to Admin:

System >> Configuration >> Magegadgets Extensions >> Easy Template Path Hints >> Manage your setting here..

#### Example:

General Settings

Enabled=Yes

Access Code=Enter you code here which will be used for enabling the template path hints

MAGEGADGETS EXTENSIONS DASHBOARD	Configuration MAGEGADGETS	^		Save Config
\$ SALES	Easy Template Path Hints		General Settings	$\odot$
CATALOG	Social Login		Version 1.1.0 [global] Enabled Yes	
CUSTOMERS	CATALOG	~	[store view] Tes	.
MARKETING	CUSTOMERS	~	(store view) magento Not Empty Access Code: //tp=1&code=[access-code] Empty Access Code: //tp=1	
CONTENT	SALES	~	Note that this works both for frontend and admin pages.	
REPORTS	D MAGEGADGETS EXTENSIONS	~	Save in Cookie [store yew] No	
STORES	DOTMAILER	~	for enabling the template path hints	
٠	SERVICES	~	clear browser cookies (Especially useful for debugging post form pages, transactional email templates etc.)	
SYSTEM	ADVANCED	~		Activate Windows

#### 4. Make it quick!

- \* Direct template path hints for all pages
- \* It works for both Frontend **as well as** Backend.
- \* This feature gives you the power to turn on/off the template path hints on the fly without going back and forth with
- System > Developer Set tings.

Please also note the settings comments which are quite explanatory.

#### Notes:

1) Disable the Cache before Installation or Refresh the Cache after Installation.

2) Disable the Compilation (System > Tools > Compilation)

3) If you get 'Access Denied' error in System > Configuration, then try to logout & re-login.
4) Visit official site for more info: <u>http://www.magegadgets.com/easy-template-path-</u>hints.html

#### Usage:

Just add query string: ?tp=1&code=code-that-you-configured-in-backend to any url of backend or frontend.

#### For example:

```
Frontend: http://magento-url/apparel/shirts/zolof-the-rock-and-roll-destroyer-lol-cat-t-shirt.html?tp=1&code=magento
```

#### Backend: http://magento-

url/admin/admin/catalog\_product/index/key/be8877b200d0bf2a8a32dc21e42eb0e5/?tp=1&c ode=magento

#### **Result:**

# Thank you!
