Display different free shipping limit in specific language for each store view :

At the backend, the scope for configuration of Free Shipping Bar Extension by BSSCommerce is store view. Hence, admins can choose to show discrete amount for free delivery for each of the store view. The content of the message is also free to be customized in any language you want.

Replace the Custom shipping bar with success message when buyer reach the minimum for free shipping :

Once buyer's cart total passes the free shipping amount, the notification bar will be replaced with a success message.

Fully-customized Custom shipping bar and success message :

At the backend, admins can use and change the default settings or customized CSS to change the design of both the notification and the success message. Let's your message be in style with your store!

3. Benefits :

Remind buyer about free shipping in a direct and impressive way:

It’s time to say goodbye to the ineffective popup to inform your free shipping policy. Buyers need something more powerful than that. With the Free Shipping Extension for Magento 2 from BSSCommerce, you can have your message implanted in customer’s mind with urge and repetition.

Trigger customers to purchase more and boost your sale :

Free shipping policy is one of the most traditional and yet effective way to boost sale. Not many buyers can say no to free shipping. Hence, they often try to by a bit more to get that goal. And you will see the significant increase in your sale from that.

Show messages based on current cart total :

Based on the customer's current shopping cart total, Mageplaza custom Shipping Bar extension will automatically calculate and show a relevant message to the buyer. There are three standard messages which match three shopping phases:
