

# Easy Template Path Hints for M1

(Magento 1.x)

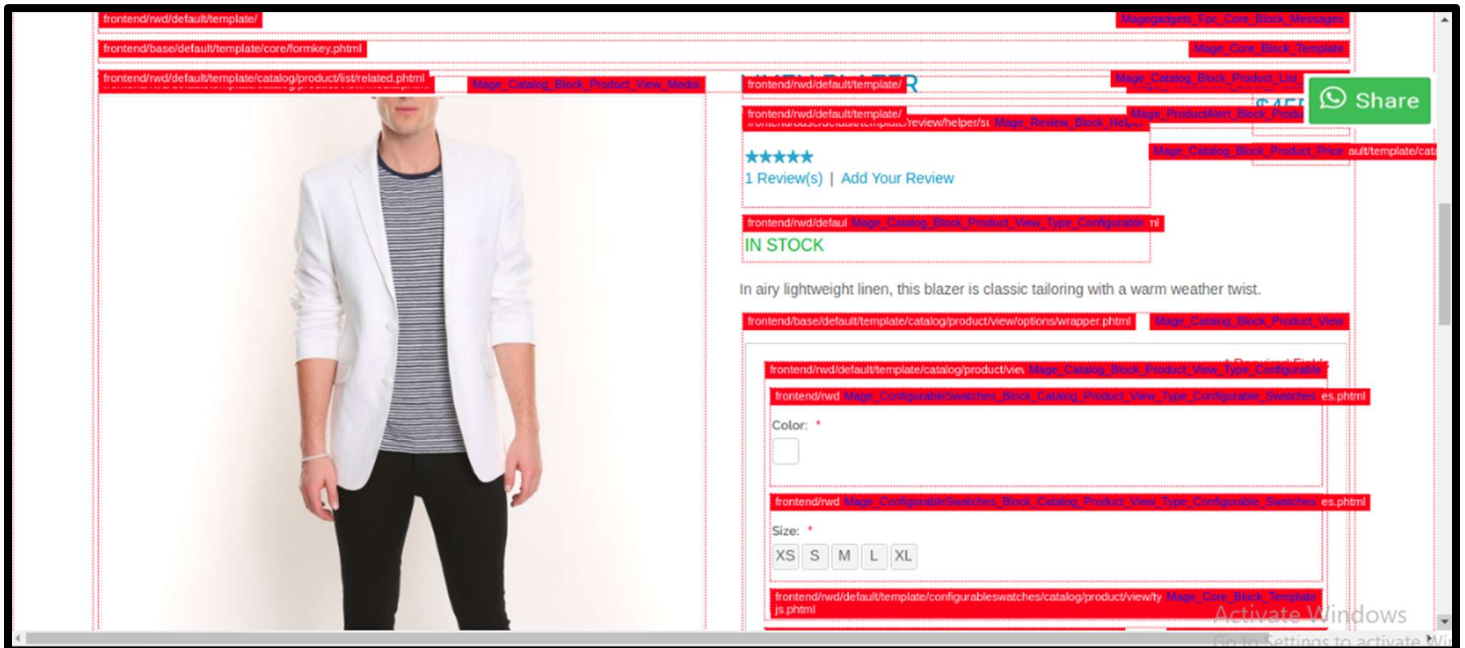

## Magento Extension User Guide

Official extension page: [Easy Template Path Hints - MageGadgets Extensions](#)

# Easy Template Path Hints for M1 Documentation

**Easy Template Path Hints extension is used to turn on the template path hints for frontend & backend with ease in a secured way. Moreover it's Joomla way of turning on the template path hints.**

## 1. Key Features:

- a - Upgrade Proof Module.
- b- Tested for Magento version 1.x
- c- Easy to install & configure.
- d- Best way of enabling template path hints.
- e- Easy to use (You don't need to go to System > Configuration > Developer > Change the configuration scope > Turn on the template path hints in order to enable. And don't need to turn off either if you don't need.).
- f- Option to enable/disable.
- g- Option to add access code for security.

## 2. All settings are available admin:

Go to Admin -> Store -> Setting -> Configuration > Magegadgets > Easy Template Path Hints

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes tabs for Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Reports, and System. The System tab is active, and a dropdown menu is open, showing options like My Account, Notifications, Tools, Web Services, Design, Import/Export, Manage Currency, Transactional Emails, Custom Variables, Permissions, Magento Connect, Cache Management, Index Management, Manage Stores, Order Statuses, and Configuration. The Configuration option is highlighted with an orange box, and an orange arrow points to it with the text "Click System > Configuration". The main content area displays the Dashboard with various sales metrics and a table of the last 5 orders.

Customer	Items	Grand Total
Jane Doe	3	\$975.55
Jane Doe	3	\$975.55
Jay Smith	2	\$372.38
Jay Smith	2	\$372.38

The screenshot shows the Magento Admin Panel interface with the System > Configuration menu path. The left sidebar contains a list of settings categories: Tax, Checkout, Shipping Settings, Shipping Methods, Google API, Payment Methods, Payment Services, Moneybookers, MAGEGADGETS EXTENSIONS, SERVICES, and ADVANCED. The MAGEGADGETS EXTENSIONS category is expanded, and the Easy Template Path Hints option is highlighted with an orange box. An orange arrow points to it with the text "Go to the 'Easy Template Path Hints'". The main content area displays the Easy Template Path Hints settings page.

### 3. Installation / Configuration:

1) Just copy & paste the 'app' folder provided in the extension zip file to the root of your magento installation.

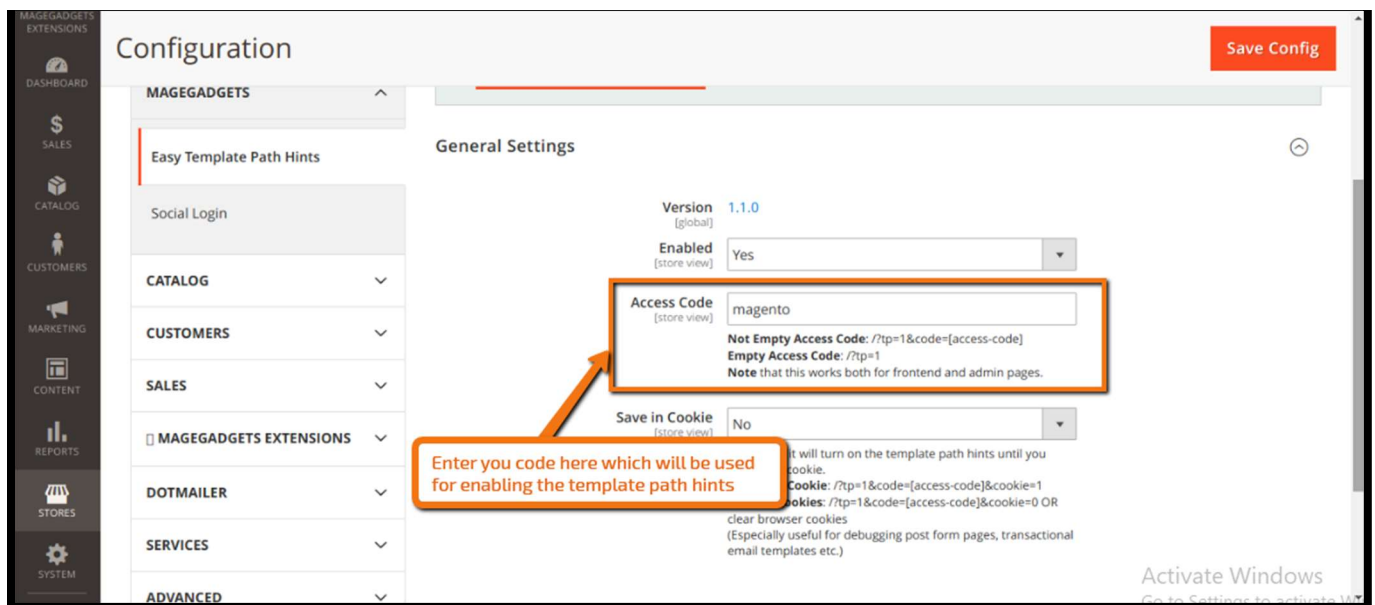

2) After installation go to Admin:

System >> Configuration >> Magegadgets Extensions >> Easy Template Path Hints >> Manage your setting here..

#### Example:

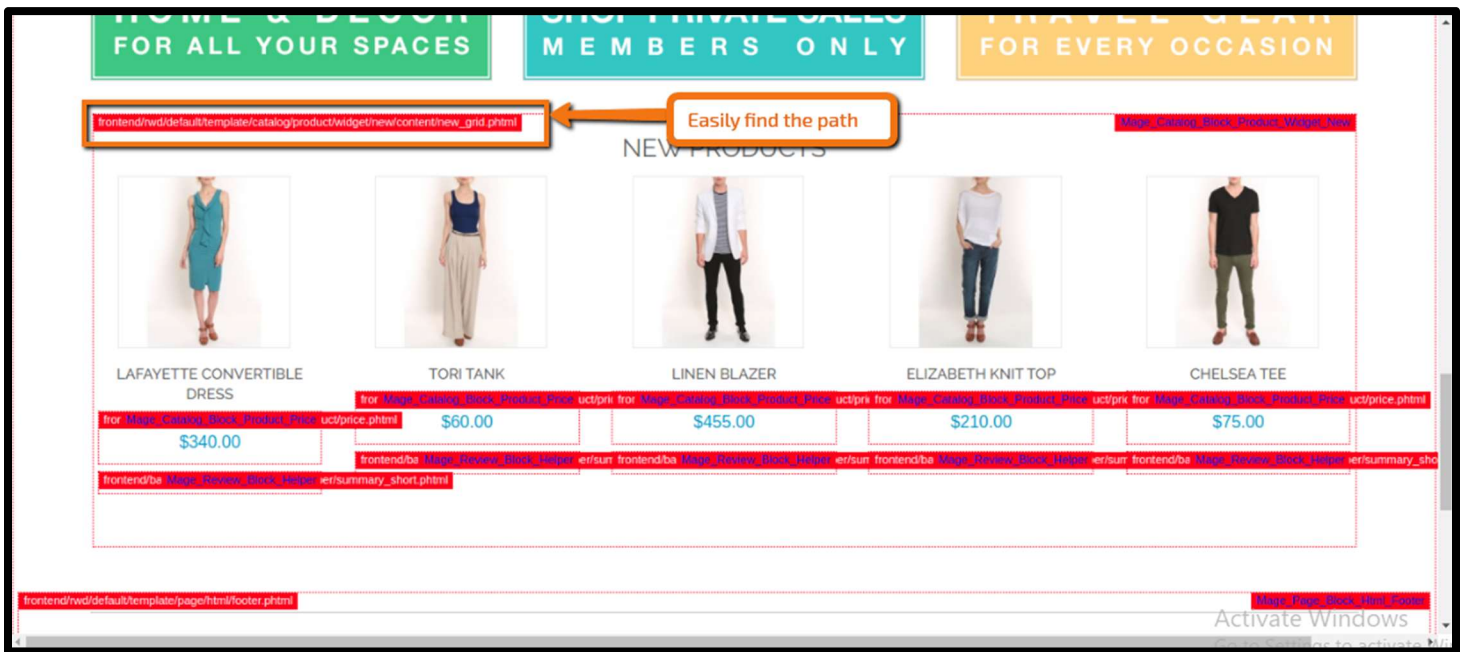

General Settings

Enabled=Yes Access Code=Enter you code here which will be used for enabling the template path hints

### 4. Make it quick!

- \* Direct template path hint for all pages
- \* It works for both Frontend **as well as** Backend.
- \* This feature gives you the power to turn on/off the template path hints on the fly without going back and forth with System > Developer Settings.

Please also note the settings comments which are quite explanatory.

## Notes:

- 1) Disable the Cache before Installation or Refresh the Cache after Installation.
- 2) Disable the Compilation(System > Tools > Compilation)
- 3) If you get 'Access Denied' error in System > Configuration, then try to logout & re-login.
- 4) Visit official site for more info: <http://www.magegadgets.com/easy-template-path-hints.html>

## Usage:

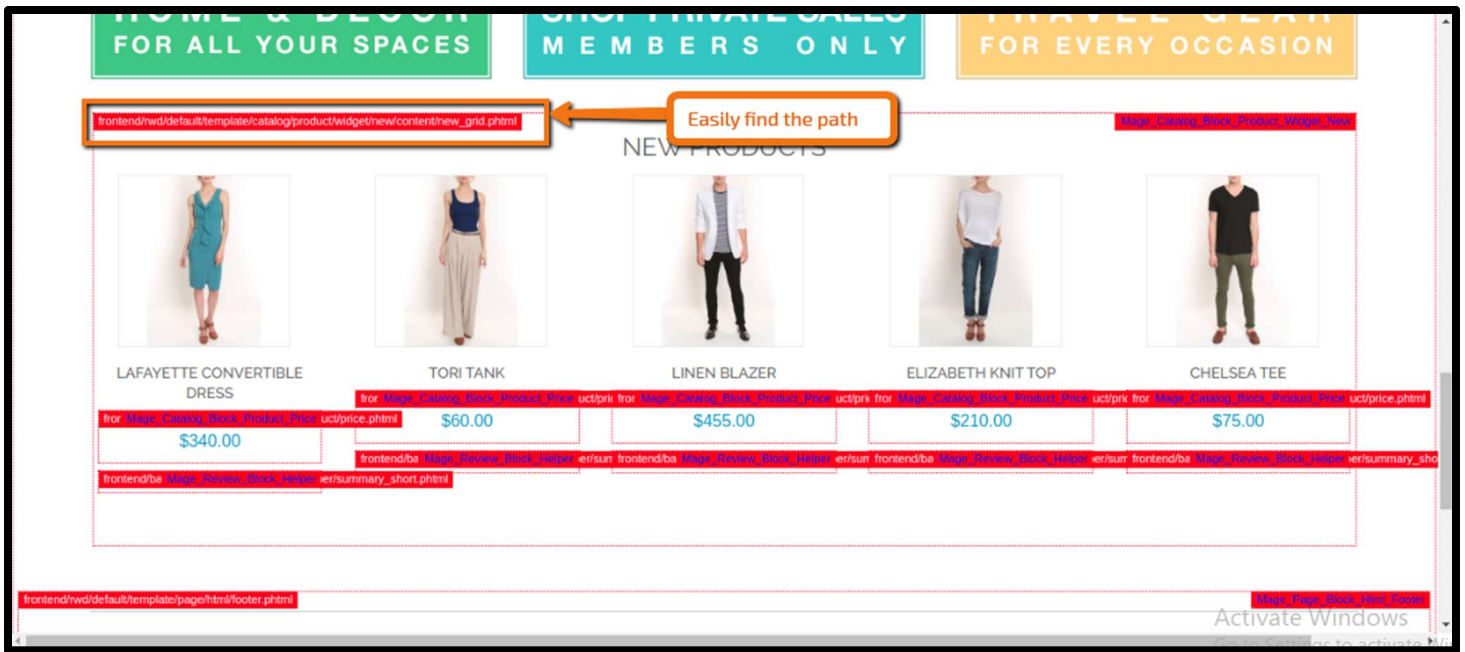

Just add query string: `?tp=1&code=code-that-you-configured-in-backend` to any url of backend or frontend.

## For example:

**Frontend:** <http://magento-url/apparel/shirts/zo-lof-the-rock-and-roll-destroyer-lol-cat-t-shirt.html?tp=1&code=magento>

**Backend:** [http://magento-url/admin/admin/catalog\\_product/index/key/be8877b200d0bf2a8a32dc21e42eb0e5/?tp=1&code=magento](http://magento-url/admin/admin/catalog_product/index/key/be8877b200d0bf2a8a32dc21e42eb0e5/?tp=1&code=magento)

## Result:

# Thank you!
