## SellerMobile Amazon Seller Reporting

### (Magento 2.0.x to 2.2.x)

#### **Magento Extension User Guide**

**Official extension page:** <u>SellerMobile - MageGadgets Extensions</u>

## SellerMobile for M2 Documentation

SellerMobile's dashboard provides you a visual display of the most important Amazon seller account information consolidated on one screen.

Accurate restock calculations, positive seller feedback, competitive product pricing and optimized keywords – all contribute to more success and higher sales on the Amazon Marketplace. SellerMobile provides a consolidated platform of tools for Amazon sellers so everything does not have to be done manually.

This extension for Magento can help you auto reprice your listings, auto-send emails for seller feedback and reviews, help you manage inventory and more.

#### **1. Key Features:**

- a View performance indicators including: sales, revenue and order details
- b Track account's profits, margins, customers' buying trends, inventory and top brands and suppliers
- c Auto-reprice product listings in bulk to increase Buy Box wins
- d Customize repricing strategies based on competition

- e Calculate when products will be out-of-stock and how much needs to be ordered for restock with demand forecasting technology
- f Track supplier production and lead times for products
- g Plan stock levels based on past lost sales due to out-of-stock, to prevent future loss in sales due to product shortage
- h Auto-send customer email blasts for seller feedback and reviews
- i Customize emails to your liking
- j Enhance product listings with prime keywords to maximize ROI Reduce long-term FBA storage fees with inventory tracking and prevent overstocking and over-purchasing.
