\* LinkedIn Login   \* Google Login

## 2. All settings are available admin:

Go to Admin -> Store -> Setting -> Configuration > Magegadgets> Social Login

## Update customer information automatically:

Magento 2 Social Login is flexible enough to edit the customer Information including email address and password that is auto-fulfilled. Besides, the client can add Address Book to make the profile clear. Due to this the check-out process will be more easy to use if he/she buys any products of your shop.

The screenshot shows the 'Configuration' page in Magento 2, specifically the 'Social Login' section. The left sidebar contains navigation links: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. The main content area is titled 'Configuration' and features a 'Save Config' button in the top right corner. Below the title, there are sections for 'Amazon', 'Twitter', 'LinkedIn', and 'Yahoo'. The 'Twitter' section is expanded, showing fields for 'Enable' (set to 'Yes'), 'Consumer Key', 'Consumer Secret', 'Callback URL', and 'Sort Order' (set to '400'). Two orange callout boxes with arrows point to the 'Consumer Key' and 'Consumer Secret' fields, stating 'Enter your "consumer key" and "consumer secret".'. Another orange callout box with an arrow points to the 'Callback URL' field, stating 'This URL is auto generate.'. A 'Create app here' link is visible below the 'Enable' dropdown.

## Support Standard registration:

Social Login for Magento 2 is the optimized solution for those people who have Social accounts like Facebook, linked-In, Google etc wants to sign up your shop. If person doesn't use the social networks of doesn't like them so he/she can use standard traditional registration way as well and thats why This is user friendly with all kind of audiences.

The screenshot shows the 'Configuration' page in Magento 2, specifically the 'Social Login' section. The left sidebar contains navigation links: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. The main content area is titled 'Configuration' and features a 'Save Config' button in the top right corner. Below the title, there are sections for 'General', 'Facebook', and 'Google'. The 'Facebook' section is expanded, showing fields for 'Enable' (set to 'Yes'), 'Facebook App Id', 'Facebook App Secret', 'Valid OAuth redirect URIs', and 'Sort Order' (set to '100'). Two orange callout boxes with arrows point to the 'Facebook App Id' and 'Facebook App Secret' fields, stating 'Enter your "Facebook app id" and "Facebook App Secret" here.'. Another orange callout box with an arrow points to the 'Valid OAuth redirect URIs' field, stating 'This URI is auto generate.'. A 'Create app here' link is visible below the 'Enable' dropdown.

## Easy to Customize:

It is easy to enable or disable any social login and to doing so it will not going to affect other social login. You can change color of the popup login box on the shop to match design with your shop's websites.

The screenshot shows the 'Configuration' page for social login settings. On the left is a sidebar with navigation links: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled 'Configuration' and has a 'Save Config' button in the top right. It lists two social login providers: Foursquare and Instagram. The Instagram settings are expanded, showing the following fields: 'Enable' (set to 'Yes'), 'Create app here' (a link), 'Client ID' (with a callout box saying 'Enter your "Client ID" and "Client Secret"'), 'Client Secret' (with the same callout box), 'REDIRECT URIS' (with a callout box saying 'This URIS is auto generate.'), and 'Sort Order' (set to '800'). Below these are the settings for Vkontakte.

## Fully compatible with One Step Checkout:

Most of the magento developers and clients uses one step checkout for there shop's websites and that why MageGadgets helps in this to give optimized solution for your website. It will increase the conversation rate dramactically.

The screenshot shows the 'Configuration' page for social login settings. On the left is a sidebar with navigation links: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled 'Configuration' and has a 'Save Config' button in the top right. It lists four social login providers: Amazon, Twitter, LinkedIn, and Yahoo. The Twitter settings are expanded, showing the following fields: 'Enable' (set to 'Yes'), 'Create app here' (a link), 'Consumer Key' (with a callout box saying 'Enter your "consumer key" and "consumer secret"'), 'Consumer Secret' (with the same callout box), 'Callback URL' (with a callout box saying 'This URL is auto generate.'), and 'Sort Order' (set to '400').
