This screenshot shows the Magento Admin Panel interface. The top navigation bar includes 'Dashboard', 'Sales', 'Catalog', 'Customers', 'Promotions', 'Newsletter', 'CMS', 'Reports', and 'System'. The 'System' menu is expanded, showing options like 'My Account', 'Notifications', 'Tools', 'Web Services', 'Design', 'Import/Export', 'Manage Currency', 'Transactional Emails', 'Custom Variables', 'Permissions', 'Magento Connect', 'Cache Management', 'Index Management', 'Manage Stores', 'Order Statuses', and 'Configuration'. The 'Configuration' option is highlighted with an orange box, and an arrow points to it from a callout box that says 'Go to System > Configuration.' The dashboard on the left shows 'Lifetime Sales' at \$39,763.08 and 'Average Orders' at \$1,988.15. A table titled 'Last 5 Orders' lists customer names, items, and grand totals.

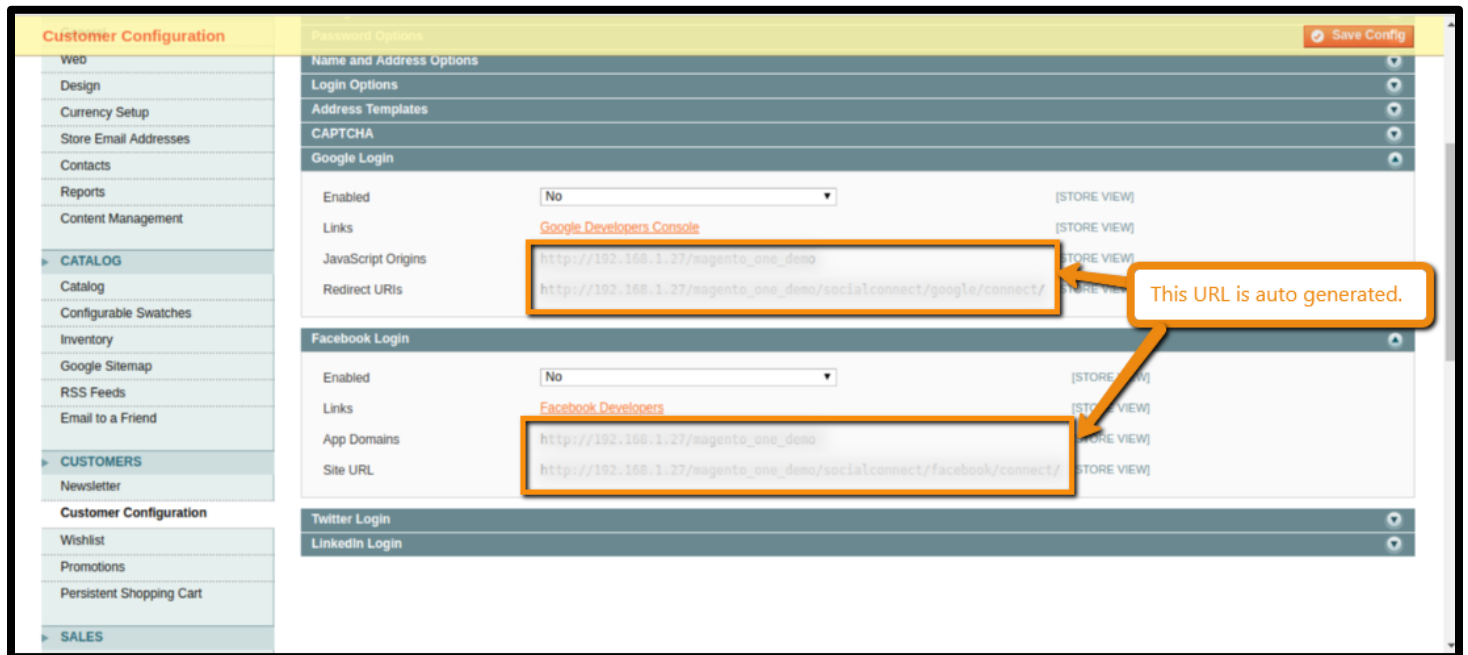

This screenshot shows the 'Customer Configuration' page in the Magento Admin Panel. The left sidebar is expanded to show the 'CUSTOMERS' section, with 'Customer Configuration' highlighted by an orange box. An arrow points from a callout box that says 'Go to System > Configuration > Customers > Customer Configuration' to the highlighted option. The main content area is currently empty, and a 'Save Config' button is visible in the top right corner.

## Update customer information automatically:

Magento 2 Social Login is flexible enough to edit the customer Information including email address and password that is auto-fulfilled. Besides, the client can add Address Book to make

the profile clear. Due to this the check-out process will be more easy to use if he/she buys any products of your shop.

### Support Standard registration:

Social Login for Magento 2 is the optimized solution for those people who have Social accounts like Facebook, linked-In, Google etc wants to sign up your shop. If person doesn't use the social networks of doesn't like them so he/she can use standard traditional registration way as well and thats why This is user friendly with all kind of audiences.

### Easy to Customize:

It is easy to enable or disable any social login and to doing so it will not going to affect other social login. You can change color of the popup login box on the shop to match design with your shop's websites.

### Fully compatible with One Step Checkout:

Most of the magento developers and clients uses one step checkout for there shop's websites and that why MageGadgets helps in this to give optimized solution for your website. It will increase the conversation rate dramactically.

The screenshot shows the 'Customer Configuration' page in Magento 2. The left sidebar contains a navigation menu with categories like CUSTOMERS, SALES, and SERVICES. The main content area is divided into sections for 'Twitter Login' and 'LinkedIn Login'. In the 'Twitter Login' section, the 'Website' field is highlighted with an orange box and contains the URL 'http://192.168.1.27/magento\_one\_demo'. In the 'LinkedIn Login' section, the 'Website URL' field is highlighted with an orange box and contains the URL 'http://192.168.1.27/magento\_one\_demo'. A callout box with an orange border and arrow points to these highlighted URLs, containing the text 'This URL is Auto Generated.'
