

Contact Us Captcha

(Magento 1.x)

Magento Extension User Guide

Official extension page: [Contact Us Captcha - MageGadgets Extensions](#)

Contact Us Captcha Documentation

This extension is to add captcha on contact your form. Admin can enable or disable captcha from admin panel. This extension has solved the solution for most of the developers to add captcha on contact us form. The module lets you protect your store from bots without digging into the code.

This extension enables captcha on contact us form. This extension does not uses any third party captcha and only uses default magento captcha class to display captcha on contact us form. Extension works with both secure and unsecure url.

Add captcha on contact us page to stop bot and fraud to fill form and provide easy interface to interact with. Refer below image to see how it looks.

The image shows a screenshot of a Magento contact form. The form is titled "CONTACT US" and includes fields for Name, Email, Telephone, and Comment. Below the Comment field, there is a captcha field with the text "Please type the letters below". The captcha field is highlighted with an orange box, and a callout box with an orange border points to it, containing the text "Captcha code will be shown in contact us form". The form also has a "SUBMIT" button and a legend for required fields.

CONTACT US

Name *

Email *

Telephone

Comment *

Please type the letters below *

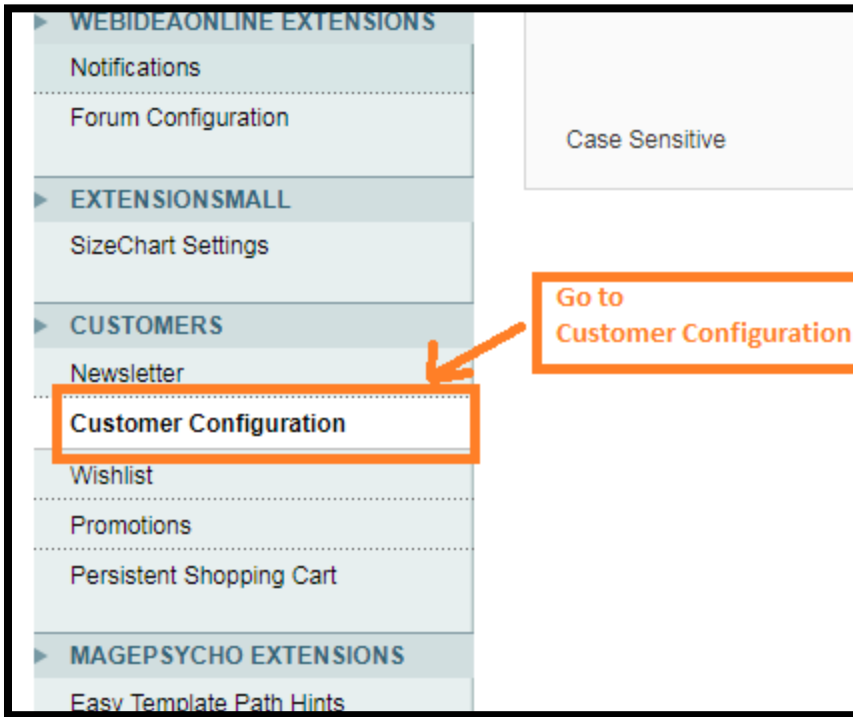

* Required Fields

SUBMIT

Captcha code will be shown in contact us form

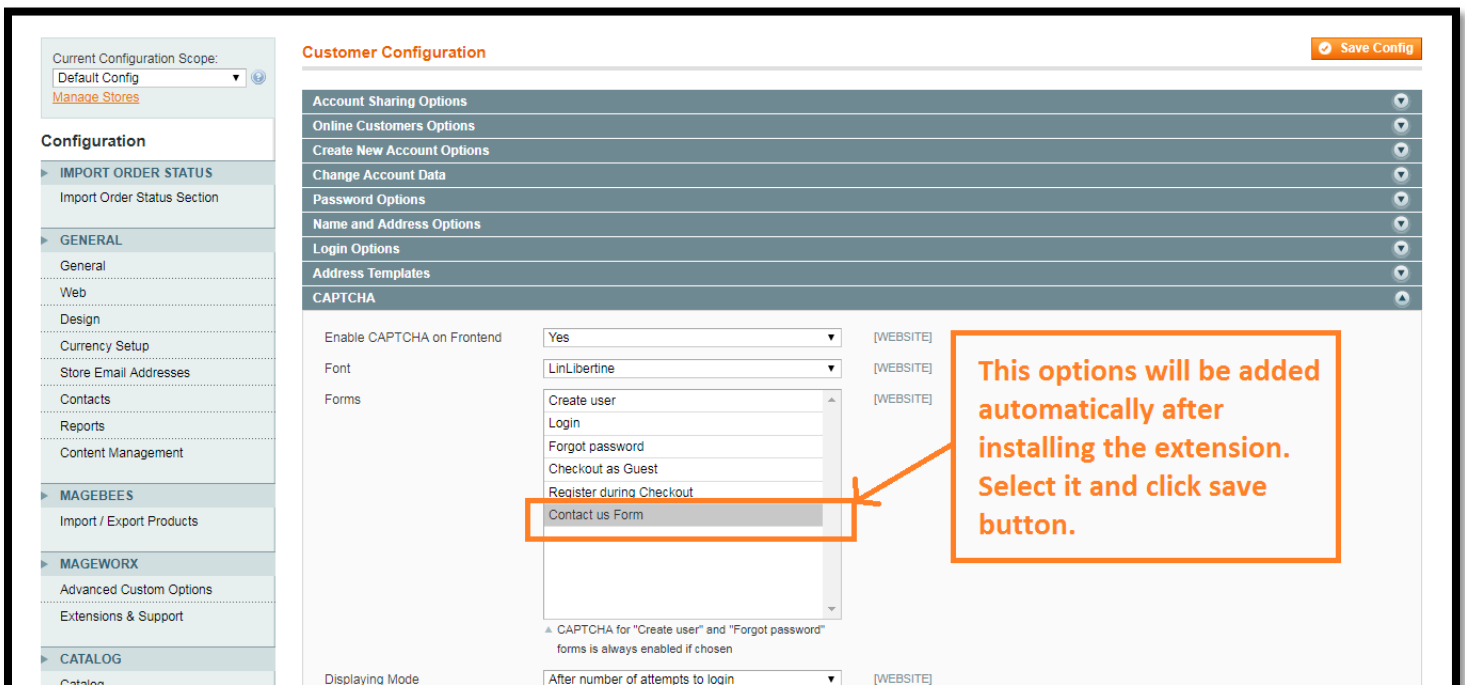

Make it enable from admin.

Go to Admin -> System -> Configuration -> Customer -> Customer Configuration.

Go to the last tab "CAPTCHA"

You will see Contact Us form will be added at the bottom of multiselect box. Please select that and save configuration.

Note:

This extension overrides RWD theme's Contact Us form. So if you are using a third party theme please take a backup before installing this extension. For a third party theme, you will need to insert just a short code. Please refer installation guide for more details we have explained in details.

Thank you!
