

### **Product Review Captcha**

#### User Guide Magento Compatibility: CE -1.9

## Official extension page: Product Review Captcha - MageGadgets Extensions

**Introduction:**This extension is to add captcha on your product review form. Admin can enable or disable captcha from admin panel. This extension has solved the solution for most of the developers to add captcha on product review form. The module lets you protect your store from bots without digging into the code.

This extension enables captcha on product review form. This extension does not uses any third party captcha and only uses default Magento captcha class to display captcha on product review form. Extension works with both secure and unsecure url.

Add captcha on product review page to stop bot and fraud to fill form and provide easy interface to interact with. Refer below image to see how it looks.
